Science of Reading

The Science of Reading is a vast interdisciplinary body of scientifically based research from around the world. We now have a body of evidence that helps to inform how proficient reading and writing develop. The information that forms the science of reading has helped to create the skills needed to develop a reading brain.

We support the science of reading and aim to provide resources that enhance its use amongst educators and readers. From comprehensive systems from Benchmark Phonics to supportive decodable readers this catalogue features resources that can help readers excel in their quest for proficient reading at any age.

If you need more information on these resources or if you would like to inquire about professional development on phonics and the science of reading we are here to help!

- Phonemes organized by level and colour band
- Teaching tips, phonics exercises
- Comprehension questions
- Downloadable teacher resources

A comprehensive and sequenced approach to phonetically decodable reading.

Decodables by Jump! begins with the very basics of phonetically decodable reading. Starting with the earliest step of CVC (consonant, vowel, consonant) words and building on this combination slowly, the reader follows a prescribed form at supported by the science of reading to encourage reading development.

As the reader moves through the colour band levels, the level of repetition and sentence structure complexity advances at a rate that encourages development and reading confidence.

SPECIFICATIONS:

Complete Paperback Set

ISBN: 9798888228388

Price: \$2,034.55 20% Disc.: \$1,627.64

Trim Size: 6½" x 9" Grades: PK-4

Page Count: 32, (40 for White, 48 for Lime)

FEATURES

- 166 fiction titles across 13 levels
- Phonemes organized by level and colour band
- Teaching tips
- Comprehension questions
- Downloadable teacher resources

Supersonic Phonics is organized by level and colour bands, providing a consistent and structured approach that helps guide and support reading instruction. As the reader moves through the colour band levels, the page numbers, word choice, and sentence structure complexity all advance at a rate that encourages development and reading confidence.

Supersonic Phonics begins with the very basics of phonetically decodable reading. Starting with the earliest step of CVC words (consonant, vowel, consonant) and building on this combination slowly, the reader follows a prescribed format supported by the science of reading to encourage reading development. This systematic and sequential approach supports most phonics programs.

Build decoding skills and comprehension at the same time

- Instructive, high-quality decodable texts target phonics skills for essential practice.
- Comprehensible stories make sense and include content worth talking about.
- Engaging and enjoyable readers nurture a love of reading.

Phonics Fun!

Reading doesn't always come easily. Luckily, there's Phonics Fun! This series will help children learn the relationships between the letters of written language and the individual sounds of spoken language. Each book tells a simple, entertaining story that highlights a letter and the letter's sound. Controlled vocabulary, engaging decodable text, and vibrant photographs help young readers learn individual letter sounds and begin a lifelong love of reading!
