

DECODABLES

BY **jump!**

A comprehensive and sequenced approach to phonetically decodable reading

Decodables by Jump! begins with the very basics of phonetically decodable reading. Starting with the earliest step of CVC words (consonant, vowel, consonant) and building on this combination slowly, the reader follows a prescribed format supported by the science of reading to encourage reading development. This systematic and sequential approach supports most phonics programs.

- 120 nonfiction titles across 12 levels!
- Real-life photos engage readers curious about the world
- Includes teaching tips and comprehension questions
- Teacher Resources available for each book

Level 0 books support children's developing speaking and listening skills as well as the linking of sounds and letters. Children are encouraged to enjoy books from as early an age as possible. However, the focus of this phase is on listening to and repeating sounds, rather than on directly reading words. In our level 0 books, there are no words.
