NEW TITLE
SPRING 2019

The underlying, serious message is well-balanced by the humorous premise and continued humor in art and text... This quirky French-Canadian import stands out—rather like an elephant at an art museum.—Kirkus Reviews

"The action words and the anticipation created in each page contribute to making this an excellent read-aloud. Recommended."—Canadian Review of Materials

Two For Me, One For You

LERNER PUBLISHING GROUP (GECKO PRESS)

Bear finds three tasty mushrooms on his way home through the woods. His friend Weasel cooks them up in the frying pan. But the friends have a problem: how to share three between two? Bear and Weasel each come up with one argument after another for why they should have more: I found them! I cooked them. With my recipe! I like mushrooms more than you. I'm bigger. I'm still growing...Until the fox comes around the corner and snatches a mushroom. That solved the problem. They eat the two mushrooms and it's time for dessert. Here comes Weasel with the scrumptious wild strawberries, three of them to share....

The Invisible War: A World War I Tale on Two Scales

LERNERCLASSROOM (GRAPHIC UNIVERSE™)

One Nurse. Trillions of microbes. A deadly WWI battle. In France of 1916, a battlefield nurse encounters a strain of lethal bacteria while treating a patient with dysentery. This army of bacteria invades deep into her gut, rallying the resident microbes to fight for their lives-and hers! Enter the phage, deadly microscopic predators, ready to wage war and protect their host. This graphic novel examines what happens when bacteria attacks the body and how the body's defenses respond, drawing upon parallels to wartime combat.

The Runaways

LERNER PUBLISHING GROUP (GECKO PRESS)

The Runaways is an adventure filled with warmth and humour from one of the world's great writers. Grandpa's in the hospital and hating it. He swears at the nurses and makes trouble. Ulf's dad finds it too stressful to visit. But Ulf visits Grandpa as often as he's allowed, and when he's not allowed, he goes anyway. Grandpa thinks only of the place he was happiest—the island where he lived with Grandma before she died. He wants to go back, but they won't let him out of the hospital. Ulf and Grandpa take things into their own hands. If running away is the only way to get to the island, then they'll be runaways.

Women Who Changed the World

(12 Story Library)

BOOKSTAVES

This series profiles inspiring, influential women who challenged stereotypes, overcame barriers, and opened doors. Some were first women in their fields. Some rose to the top of companies (and nations) previously run by men. Some were activists, some were queens, some quietly did their jobs and had a lasting impact. Each book profiles 12 living and historical diverse women whose accomplishments in their field changed the world.

Guide to the Trades (21st Century Skills Library)

CHERRY LAKE PUBLISHING

Our homes, businesses, and other buildings would not exist without the expert craftsmanship of dedicated trade workers. In this book, readers will learn what skills and training it takes to work in different trade fields. They will find out what these workers do each day, what kind of education is required, and much more.

Climate Change: Problems and Progress

MASON CREST PUBLISHERS

Climate change is perhaps the most important issue the world faces. This series explores the key parts of climate change, including global warming, biodiversity loss, greenhouse gases, and extreme weather. This series will delve into many of the problems humans have caused and share the efforts of those rallying for solutions. Authors introduce ways that creative scientists and others are seeking renewable energy, promoting water and energy conservation, encouraging recycling, and showing how to live an organic life. Students and readers will gain a strong background in the issue of climate change while also finding out ways they can be part of the solution.

Design a Better World (21st Century Skills Innovation Library)

CHERRY LAKE PUBLISHING

One new idea could make life easier for the whole world! Great inventors use a process called design thinking to help them identify problems, big and small, and create solutions for them. This series introduces readers to design thinking and teaches them how to look at problems and products in a specific way to figure out a solution or how to improve them. This thinking fosters innovation, creativity, and empathy—essential learning for students.

Disruptors in Tech (21st Century Skills Innovation Library)

CHERRY LAKE PUBLISHING

How did people go from listening to vinyl records to streaming music wirelessly on Spotify? How did black and white newspapers evolve into 280-character tweets and BuzzFeed articles filled with GIFs and memes? What impact does innovation have on society? In the Disruptors in Tech series, readers will discover how technology has positively and negatively disrupted major industries like music, media, cars, and even education!

Nutrition and Your Body (Core Library)

NORTH STAR CLASSROOM

The foods that we eat can help or harm our bodies. Our bodies need nutrients such as salt and carbohydrates to survive. But too much or too little can have consequences. We also feed our bodies things unnecessary things, like caffeine. These may have benefits. But they can also do harm. In *Nutrition and Your Body*, learn about how different nutrients interact with the body. Discover how the body digests them, the changes they cause in the body, and the good and bad effects they have on us.

All About Maps

RIVERSTREAM PUBLISHING (CHILD'S WORLD)

In the age of GPS and navigation services, kids have less exposure to traditional maps. This series breaks down different types of maps, how to read them, and how to understand them. Built for the youngest learners, each title highlights how to use maps in daily life as well as use on special, specific occasions. Labeled infographics highlight various parts of the maps for increased understanding. A "Do You Know?" section tests comprehension. This series is perfect for young explorers. Additional features include a table of contents, a phonetic glossary, an index, and sources for further research.

Fake News: Separating Truth from Fiction

TWENTY-FIRST CENTURY BOOKS

While popularized by President-elect Donald Trump during his 2017 campaign, the term “fake news” actually originated toward the end of the 19th century, in an era of rampant yellow journalism. Since then, it has come to encompass a broad universe of news stories and marketing strategies ranging from outright lies, propaganda, and conspiracy theories to hoaxes, opinion pieces, and satire—all facilitated and manipulated by social media platforms. This title explores journalistic and fact-checking standards, Constitutional protections, and real-world case studies, helping readers identify the mechanics, perpetrators, motives, and psychology of fake news.

Fake News and the Manipulation of Public Opinion

REFERENCEPOINT PRESS

Fake news is not new but, thanks to the Internet and social media, it is spreading faster and farther than ever before. Fabricated stories are creating doubt and confusion and easing the way for the manipulation of public opinion. In some cases, web sites and news articles are designed to confuse people into thinking that they are looking at trusted sources and factual stories. In other cases, the label fake news serves as a tool for discrediting unflattering accounts or opposing points of view. The result in all cases is public confusion that, many argue, threatens the foundations of democracy. Fake News and the Manipulation of Public Opinion presents a balanced but realistic view of what has been taking place, how, and why. It examines both the consequences of these actions and the efforts being made at all levels of society to end this problem.

The Push for Social Change

REFERENCEPOINT PRESS

Social change can occur slowly and quietly but it is often the result of large numbers of people mobilizing for the purpose of bringing about change. *The Push for Social Change* series explores how and why social change occurs and what impact major movements have had on people's lives. All books will examine the events that led to particular social change movements; what those movements did; how and why they did it; and the short-term and long-term impact of those movements. Quotes from people on all sides of these events add insight and interest to the discussion.

Sexual Violence and Harassment

MASON CREST PUBLISHERS

What began as a hashtag has become a revolution. In 2017, the #MeToo movement dominated the headlines when survivors—mostly women but some men, as well—came forward to demand accountability for years of mistreatment. The #MeToo movement has affected not only workplaces but campuses and classrooms as well. Sexual violence and harassment are alarmingly widespread problems that we as a society have only just begun to confront. Fortunately, there is a lot you can do to make yourself, your friends, and your community safer.

Exposing Hate: Prejudice, Hatred, and Violence in Action

TWENTY-FIRST CENTURY BOOKS

Experts have documented an explosive rise in the number of hate groups since the turn of the century, driven by anger over immigration and demographic projections for the near future. Extremists are increasingly diffuse, moving to the web and away from organized, on-the-ground activities. What is a hate group and how does it operate? What is the history of organizing around hate and how do we recognize and confront it? These are the salient issues readers will investigate in this overview.

Opioid Education

MASON CREST PUBLISHERS

In *Opioid Education*, readers will examine various aspects of opioid use and treatment in the United States and the rest of the world. The use of opioids has become a crisis in our culture, as tens of thousands become addicted every year. As lawmakers debate policy changes and law enforcement, and first responders fight the battle on the ground each day, it's imperative for young people to become educated early on this crisis. Books in this series provide young readers with a greater understanding of the ongoing opioid crisis, the role of first responders and doctors, and traditional and alternative treatment options for those who are suffering from opioid addiction.

The Global Refugee Crisis: Fleeing Conflict and Violence

TWENTY-FIRST CENTURY BOOKS

According to a UN tally, more than 1 million people fled violence and persecution in 2015. Of these, more than half were children. Thousands died along the way. The Syrian civil war as well as armed conflicts in Nigeria, Afghanistan, Yemen, Somalia, and the Central African Republic contributed to the continuing exodus of people into Europe and North America. Learn more about these modern mass exoduses, what is fuelling them in the 21st century, how nations are addressing the crises, how refugees contribute to and strain communities, and what kinds of solutions could help. Along the way, you'll meet actual refugees and the people who are trying to help.

No More Excuses: Dismantling Rape Culture

TWENTY-FIRST CENTURY BOOKS

Soon after the sexual misconduct allegations against film producer Harvey Weinstein became public in late 2017, the #MeToo movement went viral, opening up an explosive conversation about rape culture around the globe. Learn about the patriarchal constructs that support rape culture and how to dismantle them: redefining healthy manhood and sexuality, believing victims, improving social and legal systems and workplace environments, evaluating media with a critical eye, and standing up to speak out. Case studies provide a well-rounded view of real people on all sides of the issues.

Solutions for a Cleaner, Greener Planet: Environmental Chemistry

TWENTY-FIRST CENTURY BOOKS

Many of the most toxic materials on Earth—from arsenic to plutonium—occur naturally, but manufacturers have also used them in common products, such as paints, plumbing, pesticides, nuclear fuel, and weaponry. Without careful management, toxins can leach into groundwater and pollute our environment. Exposure to toxic elements leads to various cancers, impairment of the immune and reproductive systems, as well as cognitive problems. What can be done? Learn more about the chemistry of key contaminants, their history, impact on health, spills and other disasters, as well as solutions on a global and individual level.

Forest Talk: How Trees Communicate

TWENTY-FIRST CENTURY BOOKS

Trees are essential. They provide water, shelter, and food for millions of plant and animal species, including humans. They deliver proven health benefits, and they capture and store carbon, which combats climate change. Yet trees are in trouble. Forests are struggling to adapt to climate change, and deforestation is a major threat. Recently, researchers and citizen scientists made the surprising revelation that trees communicate with each other through an underground system of soil fungi and other methods. Complex social networks help trees survive and thrive by transferring resources to each other, sending defense signals, communicating with their kin, and more. Meet the tree scientists and learn more of their fascinating discoveries.

Emerging Issues in Public Health

REFERENCEPOINT PRESS

Opioid addiction has reached epidemic proportions. Firearm-related deaths have surged to the highest level in fifty years. Childhood trauma is now considered to be every bit as urgent as a natural disaster or outbreak of deadly disease. These are just three of the issues examined in the *Emerging Issues in Public Health* series. All books explore recent events and new ideas in an effort to explain what's taking place, why it matters, and what efforts are being made to address these and other public health issues.

Living Simply: A Teen Guide to Minimalism

TWENTY-FIRST CENTURY BOOKS

Twenty-first-century minimalism is an increasingly mainstream response to global environmental crises such as climate change, the garbage glut, fast fashion, and other manifestations of the harmful impact of consumerism. Originally founded in the art world in the decades after World War II, minimalism has evolved into an Earth-friendly lifestyle focusing on the three Rs (reducing, recycling, and reusing) and on simplifying individual needs to reduce one's carbon imprint, manage anxiety and depression, and prioritize human interaction over the impulse to acquire for the sake of acquisition.
