Amira's Suitcase ©22

by Vikki Conley

Amira's Suitcase is a gentle, thoughtful story about a little girl who arrives at a settlement camp with her family and a few suitcases. Before long, she finds a sprouting seed growing inside her suitcase and lovingly begins to nurture and look after the seed, like a new friend. This story encourages children to think about the process of nurturing something and helping it to grow. Exploring the key themes of friendship and inclusivity, this story ultimately shows that kindness can flourish even in difficult circumstances.

Brainstorm! ©22

by Rebecca Gardyn Levington

It's not always easy to feel creative and inspired, and that's especially true for one young student when given a writing assignment. Her foggy mind matches the gray, cloudy weather outside. But then starting with a plink, a plop, and a patter, a rain—er, brainstorm of ideas comes pouring down. Happy memories, big questions, and vivid words and phrases twirl and swirl around, unlocking ideas and inspiration. And once the student embraces the storm, she's on her way to a rainbow of writing possibilities.

Eighteen Vats of Water ©22

by Ji-li Jiang

As long as he can remember, Xian has wanted to be a great calligrapher, like his father. When he turns six, he's finally old enough to start studying. Calligraphy is more than writing-it's painting-and Xian learns how much work and creativity go into what look like effortless strokes. Based on stories still told about Xian and his father, famous calligraphers of the 4th century, Eighteen Vats of Water is about determination, creativity, and learning how to see, as well as the importance of family traditions.

Good Morning, Sunshine! The Joey Moss Story ©22

by Lorna Schultz Nicholson

Joey Moss first became well-known because of his work with the NHL Edmonton Oilers team. Whether he was singing "O Canada" on a jumbotron screen at a hockey game or dancing on a charity fashion show runway, Joey loved making people feel good. But his impact and influence started before he joined the Oilers.

Joey was born with Down syndrome at a time when many children like him were institutionalized. Instead Joey lived at home, surrounded by his family who were determined that he should receive the same opportunities as others. From this loving environment grew a caring, energetic man who showed the world that people like him could do many things and contribute greatly to society. The inspiring true story of Joey Moss, a champion for all to have an opportunity to live a full, purposeful life, comes alive in this heartwarming picture book.

I Feel That Way, Too! ©22

by Maria Ivashkina

Ever had a feeling you have no word for? There's probably a word for it in another language. From the places we go to find ourselves ("chōros" in Greek) to the importance of living for today ("vivir al día" in Spanish), there's a whole world of words for the peculiar and particular feelings that define being human.

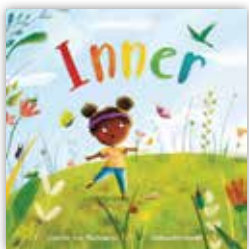

Inner ©22

by Cleteisha Ann Washington

Inner is about a young girl on her journey to question the universe about the secrets of life. The questions she poses to the universe, "Is there any kindness in the world? I'm looking for kindness," can only be found and answered from within herself. She continues her journey around the world, questioning trees, animals, plants, and water. Each time, the universe answers back to the little girl, "Go Inner." At the end of her journey, she builds up enough confidence and wisdom to understand that she can simply look within herself to find all that she needs. She is so happy to have found this powerful secret of life.

Leilong's Too Long! ©22

by Julia Liu

In this expressively illustrated picture book, an overeager dinosaur school bus causes problems for the city's transportation system—so the children find a place where oversize is perfect. Every morning, Leilong the school bus shuttles through the city, picking up children as he goes. But a brontosaurus longer than a tennis court and heavier than five buses causes big problems in the busy streets. The school decides he can't be the bus anymore. The children must find a way to help their long friend fit in.

Lisette's Lie ©22

by Catharina Valckx

Lisette and her friend the lizard have never told a lie. But they are eager to try-it might be fun! They tell Elephant they are going for a trip to the mountains. When Elephant decides to come too, they realize they'll have to make the mountain. A liar needs to improvise. In this funny story about imaginative play with friends, Lisette's creativity and quick thinking make for a wonderful day out. Lisette's Lie gently explores the differences between storytelling and lies and the importance of good intentions.

Little Island, The ©22

by Smriti Prasadam-Halls

There was once a farm where all the animals were friends. Together they looked after the farm and each other. It wasn't perfect and they didn't always agree (animals almost never do). But the Geese have hatched a plan to leave the farm . . . will life be perfect for them now? A powerful modern-day fable for our times told with humour and warmth, and most importantly, hope. A story of building bridges not barriers, respect not resentment, and of finding friendship, not fear.

Luna's Green Pet ©22

by Kirsten Pendreigh

Luna longs for a pet but the apartment building where she and her family live has a very strict NO PETS! policy. Not even goldfish are allowed. While her friends try to help with alternate pet suggestions, none interest Luna. Almost ready to give up, Luna spies in the trash something small, something green, something someone has discarded—a wilted plant. Perfect! Luna names her new pet Stephanie, confident she can nurse the plant back to health. When others question Stephanie's suitability as a pet, Luna's devotion is unwavering. She knows Stephanie is perfect just as she is. But will Luna's love and care be enough to restore Stephanie to full health? And what are those strange bumps growing on her? This charming story of one young girl's belief, determination, and out-of-the-box thinking is perfect for anyone who has ever wished for a pet, only to be told no.

Miss Mary's Christmas Mittens ©22

by Trinka Hakes Noble

Miss Mary is beloved by her students. She makes learning enjoyable and easy, and her brightly coloured knitwear brings a smile to everyone's face. Walking to school on the last day before the Christmas break, Miss Mary envisions all the outdoor fun students will have at recess. But recess isn't fun. No one wants to play. The snow is cold and the children don't have any mittens. Not to worry, thinks Miss Mary. She will knit mittens for her students as a Christmas surprise. But the store has run out of yarn, with no more deliveries before Christmas. Oh dear, where can Miss Mary find the yarn to knit mittens for her students? The clock is ticking on this holiday surprise. Brought to life in charming colourful artwork, this uplifting story of generosity and love reminds readers that the best gifts come straight from the heart.

Mr. Thatcher's House ©22

by Kristin Wauson

Mr. Thatcher is on his way to building his perfect house. Each day he measures, saws, sands, and nails. But no matter how hard he works, it's not perfect. Something is missing. So in an effort to make it a perfect house, he keeps building. His house grows and grows and grows—into far too much space for one rabbit. Yet it's still not perfect in Mr. Thatcher's eyes. One day there's a knock on the front door. It's an old witch whose gingerbread house has been nibbled away; she's looking for a place to stay. Surely Mr. Thatcher has room, even in his not-so-perfect house. Soon more and more very familiar fairytale-like folk arrive, all asking for a place to live. Will Mr. Thatcher let them all in? And what does it take to make a house a perfect home? A sweet story about opening one's home and one's heart.

Oh, Sir Bragalot! ©22

by Sharon Davey

"I climbed a rainbow!" "I caught a star!" "I flew to the moon!" Once upon a time there was a knight called Sir Bragalot who liked nothing more than to brag and boast all day long . . .

He told all his fellow knights that he was better than them . . . stronger than them . . . faster than them until they became bored and fed up. One day, Sir Bragalot is put to the test.

A dragon comes near the kingdom and the Queen appoints Sir Bragalot to defeat the dragon. How does Sir Bragalot feel about this? Can Sir Bragalot save the kingdom or will he just live up to his name? A humorous storybook, complemented by laugh-out-loud illustrations, that touches upon the consequences of when boasting goes a bit too far!

Pirates Don't Dance ©22

by Shawna J. C. Tenney

Jack longs to be a pirate. He loves everything about the job, from the peacefulness of the ocean to the opportunity to make new friends to the excitement of exotic travel. Jack also loves to dance, from the graceful glide of the glissade to the energetic leap of the grand jeté to the controlled kick of the grand battement. In fact, Jack often dances as he does his pirate apprentice chores. Unfortunately, Captain Squinty Eye's number one pirate-ship rule is PIRATES DON'T DANCE. Dancing is too silly and not fitting for a rough, tough pirate. What will it take for Jack to convince Captain Squinty Eye that dancing is not a bad thing, and may even help Jack be a better pirate? Or will Jack and his dreams get tossed overboard? An empowering and relatable story about staying true to yourself and following your dreams. Back matter includes explanations of dance movements, as well as definitions of pirate speak.

Planet Like Ours, A ©22

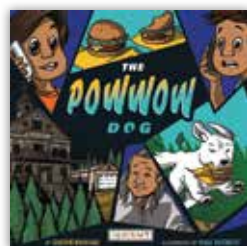

by Frank Murphy

There may be hundreds of billions of planets in the universe, but there is only one planet like ours. From the soil where crops for food are grown to the atmosphere that provides the air we breathe, we rely on planet Earth to nourish us, protect us, and provide us with a place to live. But just as much as we rely on Earth, our planet relies on us for safekeeping.

Authors Frank Murphy and Charnaie Gordon remind young readers of the many ways life on Earth is interconnected and how we all rely on these critical resources—our air, our water, our soil. Colorful visuals offer suggestions on how everyone can be a good steward of our home.

Sashiko ©22

by Barbara Ciletti

During Japan's Edo period, a style of needlework was born from a need to make fishermen's clothing stronger and warmer. The "little stabs" of running stitches known as sashiko soon became an art form, inspiring this tale told from the perspective of a child who witnesses her mother stitch love and protection "into cloth as blue as the summer sea."

A poetic tale on the origins of sashiko, an elegant textile art from Japan.

Secret of the Plátano Tree, The ©22

by Luz María Mack

"Under the full moon, Abuela leads an enchanted dance, bows to the sky and the night winds, and helps her curious grandson discover the rhythm of his heartbeat while listening to the great secret of the plátano trees. At first his tiny ears couldn't hear it, but Abuela shares that she can't teach something that only her heart knows. This loving and tender story of the magical union between a grandmother and her grandson was penned by Dominican-American author, Luz María Mack, and inspired by a dream where she and her Abuela met again to dance and share the secrets of the plátano trees. Sometimes the secrets of life are written in nature, under the stars and in the sounds of the whispering trees.

Snowman Waltz, The ©22

by Karen Konnerth

On a cold winter's night under a starry sky, a dozen snowmen waltz in pairs along a frozen river. The snowmen bump, spin, and laugh as they make their way to dance on a frozen pond in a clearing. But wait, who is tramping down the hill into the very same space? A dozen penguins march in, interrupting the dance. It's a collision on ice! How can both groups share the same space? What will it take to sort out this kerfuffle to everyone's satisfaction? Told in lyrical text with contrasting rhythms, this fun read-aloud offers a subtle lesson in cooperation for readers of all ages.

So Much More to Helen: The Passions and Pursuits of Helen Keller ©22

by Meeg Pincus

We all know Helen Keller's story—but what else do you know about her? Did you know she was an activist, a rebel, a performer, a romantic and so much more! Most stories about Helen Keller focus on the story of her deaf-blindness and scholarship, but there is more to Helen than her disability. This bouncy, rhyming story is an excellent tool for teaching children to see beyond the surface with everyone they encounter.

Tale of the Tiny Man, The ©22

by Barbro Lindgren

There was once a tiny man. One day, at the first sign of spring, he decided to pin a note to a tree that said FRIEND WANTED. Then he sat down on the step to wait. After ten days, he woke to find a cold nose in his hand. Beside him was a big dog with a beautiful curve in its tail. The tiny man had made a friend at last. They play and walk and laugh every day. But then the girl in the polka dot dress comes to the step. The little man watches as the dog put his soft muzzle into the girl's hand and worries that he has lost his only friend. The Tale of the Tiny Man is a touching picture book about loneliness that has a very happy ending. It is possible after all to have more than one friend.

The Three Canadian Pigs: A Hockey Story ©22

by Jocelyn Watkinson

In the snowy north all these three little pigs want to do is skate and play hockey. But when a hungry wolf shows up, the trio must flee to their house of ice. The wolf isn't alone, though, and soon he and his buddies, Moose and Bear, mount an aggressive attack to get a pork chop dinner. But these piggies have more heart than ham and decide enough is enough. They challenge the marauders to finish this the Canadian way—a hockey game showdown!

The pigs go all in on this game of a lifetime but will it be enough to save their . . . bacon? This clever riff on the classic Three Little Pigs tale will bring a smile to hockey fans young and old.

Notes from a Sickbed ©22

by Tessa Brunton

In 2009, Tessa Brunton experienced the first symptoms of myalgic encephalomyelitis (also known as chronic fatigue syndrome). She spent much of the next eight years unwell, in a medical holding pattern, housebound and often alone. In 2017, she found a strategy that helped reduce her symptoms, and soon began creating the first instalments of a graphic memoir. Notes from a Sickbed collects previously released and brand-new, unseen comics that recall her experiences with honesty, a pointed wit, and a lively visual imagination.

ARTS & CRAFTS

Washed Ashore: Making Art from Ocean Plastic ©22

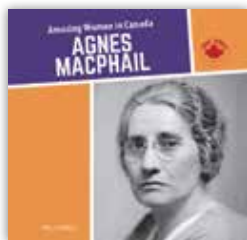

by Kelly Crull

Every day, we use plastic products. And where does these items go when we are done with them? When artist Angela Haseltine Pozzi found plastic trash polluting the beach near her home, she took action. She formed an organization called Washed Ashore and started gathering trash from beaches and using it to create incredible sculptures of wildlife. These sculptures travel the country to teach people about the importance of these animals-and the problems caused by plastic pollution. There's information about each ocean animal as well as tips for how you can reduce your plastic use, hold a beach cleanup and make your own plastic art. Be inspired to get creative in protecting the world's oceans!

Black Voices on Race (Voyager) ©22

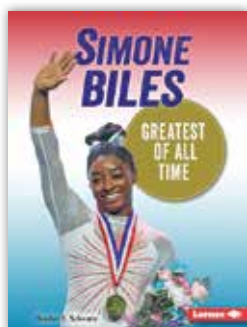

The United States has been reckoning with race and racism since its inception. Black creatives of all types—novelists, poets, musicians, singers, actors, directors, and more—have used their chosen media to illuminate this struggle and articulate the experience of being Black in America. This fascinating series, written by Black authors, tells the stories of eight Black creatives whose artistic and cultural contributions have expanded the collective conversation on race. Each book summarizes the person's life and career to date, drawing attention to their accomplishments and how they have spoken out as a voice on race.

How the World Worships (45th Parallel Press) ©22 by Kirsten Chang

Readers will learn about the core teachings and beliefs of the world's most widely practiced religions through the lens of two different perspectives, one from the United States and the other from another country where the religion is predominant, and dive deep into the important figures, sacred texts, holidays, and commandments. This narrative nonfiction series uses considerate text that is written at a higher maturity level with a lower reading level to engage and accommodate struggling readers.

Asylum Seekers: Hope and Disappointment on the Border ©22

by Patricia Sutton

Individuals who are persecuted or endure gang and gender-based violence in their home countries face a difficult decision—stay or leave. Asylum seekers travel through dangerous conditions to the US/Mexico border in hopes of finding safety and refuge. This title examines how current events, political policies, and a global pandemic have made the asylum process more difficult. Personal stories of those on the journey help readers understand the people who seek asylum at the southern border.

Attention Hijacked: Using Mindfulness to Reclaim Your Brain from Tech ©22

by Erica B. Marcus

Technology surrounds us every day: a phone alarm wakes us up, an electronic calendar tracks assignment deadlines, GPS directs us to the new dentist's office, social media keeps us connected to friends and family, and streaming platforms make sure we're never without something new to binge watch. Our devices and apps can make life much more convenient and entertaining. But for years, scientists have warned that too much screen time may have negative effects on our health. With portable devices and remote learning, it is even more difficult to put down electronics. Being intentional about how and when to unplug can help teens and young adults to protect their physical and mental wellbeing in a world where screens and technology are increasingly becoming necessities rather than just conveniences.

Biased Science ©22

by Stephen Currie

Science is supposed to be impartial, ethical, and concerned only with the truth, but in many cases science is none of those things. From the infamous Tuskegee experiments to deliberate falsification of scientific results for political purposes, from leaving women out of medical studies to developing devices that are much more effective on White people than on Black people, science is as prone to bias as any other field. The book looks at examples of biased science and the results on society.

Cancel Culture: Social Justice or Mob Rule? ©22
by John Allen

The rise of so-called cancel culture has enabled voices on social media to express disapproval for people's words or actions. Individuals can be "cancelled" for racist statements, sexual misconduct, or other perceived misbehaviour. *Cancel Culture: Social Justice or Mob Rule?* looks at this phenomenon and the controversy over whether it often goes too far.

Domestic Extremism: How Big Is the Threat?

©22

by Hal Marcovitz

Violent incidents that can be directly attributed to domestic extremism are increasing. In recent years, experts note, most of those incidents were perpetrated by right-wing extremists. These extremists follow a mix of ideologies. What they have in common—the driving force behind their actions—is the belief in violence, intimidation, and mass destruction to advance their social and political views.

Gender Inequality in Sports: From Title IX to World Titles ©22

by *Kirstin Cronn-Mills*

Forty years ago, US president Richard Nixon signed Title IX into law, making it illegal for federally funded education programs to discriminate based on sex. The law set into motion a massive boom in girls and women's sports teams, from kindergarten to the collegiate level. Professional women's sports grew in turn. Title IX became a massive touchstone in the fight for gender equality. So why do girls and women-including trans and intersex women-continue to face sexist attitudes and unfair rules and regulations in sports?

Glowing Bunnies!?: Why We're Making Hybrids, Chimeras, and Clones ©22

by *Jeff Campbell*

In the pages of *Glowing Bunnies!?* you will encounter some of the strange and wonderful genetically modified animals of tomorrow. Learn why scientists are going to such lengths to mess with genes and what the ethical and health-related consequences might be. By understanding both the science and the stakes, you too can judge the potential of this budding science to save-or ruin-the world. Presented as a compendium of existing and proposed creatures, this book describes the animals being created, the scientific techniques involved, and each animal's purpose. Additionally, it addresses bioethics, unintended consequences, and animal welfare.

How to Be a Difficult Bitch: Claim Your Power, Ditch the Haters, and Feel Good Doing It ©22

by Halley Bondy; Mary C. Fernande

In the past, being a "difficult bitch" was bad. Girls weren't supposed to call people out for their BS, stand up for themselves, or do their own thing. This book embraces the insult with irreverent humour, encouraging readers to be themselves no matter what, including an exploration of the ways this phrase can be interpreted differently among people of different backgrounds. Being a powerhouse is a choice. It's a lifestyle. It's a code of ethics. It takes work, a thick skin, and perseverance. In this book, you'll learn the ins and outs of being a Difficult Bitch, from school to friends to body to life. sweet taste of amber, sticky goodness is ready.

Pandemic Aftereffects: The Surge in Teen Eating Disorders ©23

by Katie Sharp

The Covid-19 pandemic led to a surge in teen eating disorders. Faced with school shutdowns, isolation, and other stressors, many young people felt a loss of control over their lives. For some, food was the only thing they could control. This book explores eating disorders and exactly why this surge in eating disorders occurred. The text is filled with personal stories of how eating disorders develop, what it is like to struggle with an eating disorder during the pandemic, and what it takes to conquer an eating disorder in the face of such unique obstacles.

Power of Social Media, The ©23

by Stuart A. Kallen

Social media has been used to turn average teens into celebrities, shake financial markets, and drive the masses into the streets in protest. It has also been blamed for increasing addictive behavior, spreading lies, and lowering the self-esteem of users. This book brings together academic research, personal stories, and current events to explore the power of social media in today's world.

Science and the Skeptic: Discerning Fact from Fiction ©22

by Marc Zimmer

Fake news, pseudoscience, and quackery have become scourges, spreading through society from social media all the way to Congress. The line between entertainment and reality, between fact and fiction, has become blurred. Some of the most crucial issues of our time—climate change, vaccines, and genetically modified organisms—have become prime targets for nefarious disinformation campaigns. Far too many people have become distrustful of real science. Even those who still trust science no longer know what to believe or how to identify the truth. Not only does this result in the devaluation and distrust of real science, but it is also dangerous: people acting based on false information can hurt themselves or those around them.

Teen Innovators: Nine Young People Engineering a Better World with Creative Inventions ©22

by *Fred Estes*

From Gitanjali Rao, who discovered a new way to test for lead in water, to William Kamkwamba, who built a windmill out of spare parts for his village in Malawi, Teen Innovators celebrates the determination and ingenuity of youth. Each chapter tells the story of invention, the discovery of a problem, the science and research the innovators completed, and the creation of a unique device or method to solve the issue. The profiles explore the challenges, motivations, and lives of these teen visionaries. Paired with clear descriptions of the science behind these inventions, Teen Innovators provides an inspirational and informational dive into the lives of young scientists.

UFOs and Alien Encounters: Are They Real? ©22

by *Hal Marcovitz*

For centuries, people have looked into the sky and observed objects they just can't explain. These unidentified flying objects, or UFOs, have sparked many investigations, some by scientists but many by amateur UFO hunters. After numerous probes into the possibility that UFOs regularly visit the Earth, experts remain divided on whether alien encounters have truly occurred.
